19
Double-side PE release paper is moisture-proof, anti-curling, and endures high temperature.

Tandem (Double Sides) Extrusion Laminating Machine  
雙面淋膜機

- High efficiency
- Smooth, even laminating
- Easy to operate
- Auto change system (no need to reduce speed)
- Easy maintenance
- Sophisticated control
- Easy to operate
- Auto feeding system (optional)

Laminating Machine Specifications:
- Main screw thickness: 25 - 140 mm
- Extruder screw diameter: 25 - 66 mm
- Horse Power (kW): 75 - 888 kW
- Output: 100 - 450 kg/h
- Line Speed (m/min): 100 - 300 m/min
- Laminating Width (mm): 600 - 2000 mm
